Railroad Derailment, Los Angeles, Los Angeles County, Hazardous Materials Spill Report: 18-4260

On 06/27/18 at 2124 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR), advising that one railcar derailed in the upright position due to unknown causes.

- This type of railcar is typically loaded with gravel; however, UPRR was unable to confirm the contents.
- Mainline rail traffic was halted.
- The 92nd St. railroad crossing was blocked by the train.
- There were no hazardous materials released and no injuries reported.
- CSWC made notifications per SOP.

On 06/28/18 at 0442 hours, the CSWC Watch Officer contacted UPRR and obtained the following update:

- The railcar was empty at the time of the incident.
- The railcar and train has been removed from the track.
- The 92nd St. crossing is no longer blocked.
- The track needs repairs and is closed pending assessment during daylight.
- UPRR freight traffic is affected by the closure; however, metro rail traffic is not affected.

Railroad Derailment, City of Industry, Los Angeles County, Hazardous Materials Spill Report: 18-4259

On 06/27/18 at 2011 hours, CSWC received a report from UPRR, advising that two empty railcars derailed in the upright position due to unknown causes.

- One railcar was last loaded with lumber and one (a flatbed car) was loaded with unknown material.
- There were no hazardous materials released and no injuries reported.
- There were no impacts to rail traffic.
- CSWC made notifications per SOP.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels		
National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 3	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

INLAND REGION

Lane, Vegetation Fire, Tehama County

Location: Hwy 36, Paynes Creek

Jurisdiction: State DPA, SRA

CAL FIRE IMT-2 is assigned

Per Cal OES Duty Officers and ICS-209, as of **06/28/18 at 0540 hours**:

- 3,829 acres grass, brush and timber, **83% contained**
- Expected containment: 06/29/18

Activations

- Tehama County Emergency Operations Center (EOC) is activated at Level 3 from 0700 to 1900 hours.

Deployments

- 2 Cal OES Fire and Rescue Branch Assistant Chiefs
- 1 Cal OES Inland Region Emergency Services Coordinator (ESC) deployed to Tehama County
- 1 Cal OES Public Safety Communications Technician (PSCT) assigned

Proclamations

- On 06/26/18, a Proclamation of Local Emergency was received as a result of the fires burning in Tehama County. The county is requesting California Disaster Assistance Act (CDAA) and Small Business Administration (SBA) disaster assistance.

FIRE ACTIVITY

INLAND REGION (Continued)

Stoll, Vegetation Fire, Tehama County

Location: Stoll Rd. x Baker Rd., west of Red Bluff

Jurisdiction: State DPA, SRA

Per Cal OES Duty Officers and ICS-209 as of 06/27/18 at 1753 hours:

- 268 acres grass and brush, 100% contained
- 6 non-residential commercial structures damaged

Activations

- Tehama County EOC is activated at Level 3 from 0700 to 1900 hours.

Deployments

- 2 Cal OES Fire and Rescue Branch Assistant Chiefs
- 1 Cal OES Inland Region ESC deployed to Tehama County

Proclamations

- On 06/26/18, a Proclamation of Local Emergency was received as a result of the fires burning in Tehama County. The county is requesting California Disaster Assistance Act (CDAA) and Small Business Administration (SBA) disaster assistance.

Road Closures

- Hard road closure of Baker Rd. at Walbridge and Walnut at Live Oak to stay in place.

FIRE ACTIVITY

INLAND REGION (Continued)

Creek Complex, Vegetation Fire, Shasta County

Location: Clear Creek Rd. x American Rd. west of Redding

Jurisdiction: State DPA, SRA

Per Cal OES Duty Officers and ICS-209 as of [06/28/18 at 0600 hours](#):

- 1,475 acres grass and oak woodland and timber, [75% contained](#)
- Expected containment: 07/01/18
- Continued structure threat

Activations

- Shasta County EOC is activated at Level 3 with an operational period of 0700-1900 hours.

Deployments

- 1 Cal OES Fire and Rescue Branch Assistant Chief
- 1 Cal OES Inland Region ESC

FMAG

- On 06/24/18, a Fire Management Assistance Grant (FMAG) request was received by Cal OES and approved by FEMA; FEMA-5244-FM-CA.

Proclamations

- On 06/27/18, an Emergency Proclamation was received from Shasta County for the Creek Fire. They are requesting Director's Concurrence, a Gubernatorial Proclamation, and CDAA.

Evacuations

- On 06/26/18 at 1900 hours, evacuations were lifted in the following areas: Panther Rd., Dale Ln., Tobacco Rd., Pine Meadows Pl., Diana Wy., Clover Ln., Wilbur Ln., Cloverview Rd., Sunshine Ridge Rd., Pebblewood Ln., Hilo Ln., Ronnie Ln., Cobblestone Ln.
- The repopulation numbers are estimated at 150 residents.
- 11 homes are still in the evacuation area.

Road Closures

- Cloverdale Rd. will continue to be closed from just west of Cloverview Rd. on the southeast end to the Cloverdale trail head on the northwest end.
- Clear Creek Rd. will continue to be closed from Honey Bee Rd. on the east end and the county transfer station on the west end.

FIRE ACTIVITY

COASTAL REGION

Pawnee, Vegetation Fire, Lake and Colusa Counties

Location: Pawnee Rd. x New Long Valley Rd., 4 miles NE of Clear Lake Oaks

Jurisdiction: State DPA, SRA

CAL FIRE IMT-3 assigned

Per Cal OES Duty Officers and ICS-209, as of 06/28/18 at 0601 hours:

- 13,700 acres grass and oak woodland, 40% contained
- Expected containment: 07/01/18
- Fire remained active throughout the night
- 500 residences and 100 minor structures threatened
- Single residences damaged: 3
- Other minor structures damaged: 1
- Threat to Indian Valley Reservoir Hydroelectric Plant

Activations

- Lake County EOC is activated at Level 3, Operational Period 0800 - 1800 hours daily

Deployments

- 1 Cal OES Fire and Rescue Branch Assistant Chief
- 1 Cal OES Law Enforcement Branch Assistant Chief
- 1 Cal OES Coastal Region ESC
- 3 Cal OES PSCTs assigned

FMAG

- On 06/23/18, an FMAG request was received by Cal OES. On 06/24/18, the FMAG was approved by FEMA; FEMA-5244-FM-CA.

Proclamations

- On 06/24/18, a Proclamation of Local Emergency was received from Lake County as a result of the incident. On 06/27/18, a letter was received from Lake County requesting disaster assistance under CDAA.
- On 06/25/18, Governor Edmund G. Brown Jr. issued an emergency proclamation for Lake County due to the effects of the Pawnee Fire, which has destroyed homes, threatened critical infrastructure, and caused power outages and the evacuation of residents. [Click here for full proclamation](#)

FIRE ACTIVITY

COASTAL REGION (Continued)

Pawnee, Vegetation Fire, Lake and Colusa Counties (Continued)

Evacuations

Lake County:

- Mandatory evacuation orders have been lifted for the Spring Valley Community. All areas of Spring Valley, New Long Valley, and Old Long Valley opened at 1600 hours on 06/27/18.
- Mandatory evacuation orders are still in place for the Double Eagle Ranch area.

Colusa County:

- Advisory evacuations have been issued in the areas of Bear Valley and Leesville, and includes Wilbur Hot Springs.
 - Approximately 5 residences and 10-12 residents are affected.

Shelters

- American Red Cross (ARC), Lower Lake High School, 9430 Lake St., Lower Lake
 - Midnight Population, 06/27/18: 13
 - Animal shelter plan has been activated
- Unsanctioned Shelter: Moose Lodge, 15900 E. Hwy. 20, Clearlake Oaks
 - Midnight Population, 06/27/18: 200 (most of which are outside)
 - Evacuees utilizing the lodge have been encouraged to go to the ARC shelter
 - The Sheriff along with County Environmental Health, Mental Health, and ARC are monitoring this site
 - There are no unmet needs at this time

Road Closures

- Road Closures will remain at Walker Ridge Rd. and Hwy. 20, as well as Mule Skinner Rd. and Hwy. 20.

FIRE ACTIVITY

COASTAL REGION (Continued)

Pawnee, Vegetation Fire, Lake and Colusa Counties (Continued)

Critical Infrastructure

- Indian Valley Dam at Indian Valley Reservoir – Owned by Yolo County Flood Control District
 - Impacts: Dam operator reported that the fire has affected the infrastructure.
 - Dam operations are not affected - They are running on generator power and their ability to produce hydro power is down.
 - At this time, there is no threat to the dam.

Water Impacts

- Lake County CSA 2 Spring Valley ID #17110018 service area was evacuated.
- Spring Valley serves 494 connections (pop. est. 995).
- Water source: Cache Creek treatment: slow sand filtration and disinfection.
- Telemetry was restored 06/25/18. Water system is producing enough water to keep up with demands. No advisory in place.

Health/Medical

- 1 Air Monitor is currently placed in Middletown and available to move to other locations as needed.
- 1 Air Monitor is in Clear Lake.

Schools

- No schools affected in the evacuation area

Recovery

- CAL FIRE damage inspectors, along with Lake County building inspectors, assessed areas on 06/26/18 for initial damage estimates.
- Public works is currently removing hazardous trees in fire affected areas in anticipation of re-entry.

WEATHER OF CONCERN

Weather of Concern

- Temperatures expected to increase as drying north winds develop across Northern California starting Friday.
 - The combination of gusty winds and low humidity may result in critical fire weather conditions Friday into the weekend.
 - The strongest winds are expected in the Sacramento Valley west of Interstate 5, extending into the Coastal Range.

Weather Advisories, Watches, and Warnings currently active in California:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Periods of gusty winds, hot temperatures and low humidity will occur through this weekend across Northern California as the weather pattern remains a bit unsettled with passing troughs and strengthening high pressure in between.

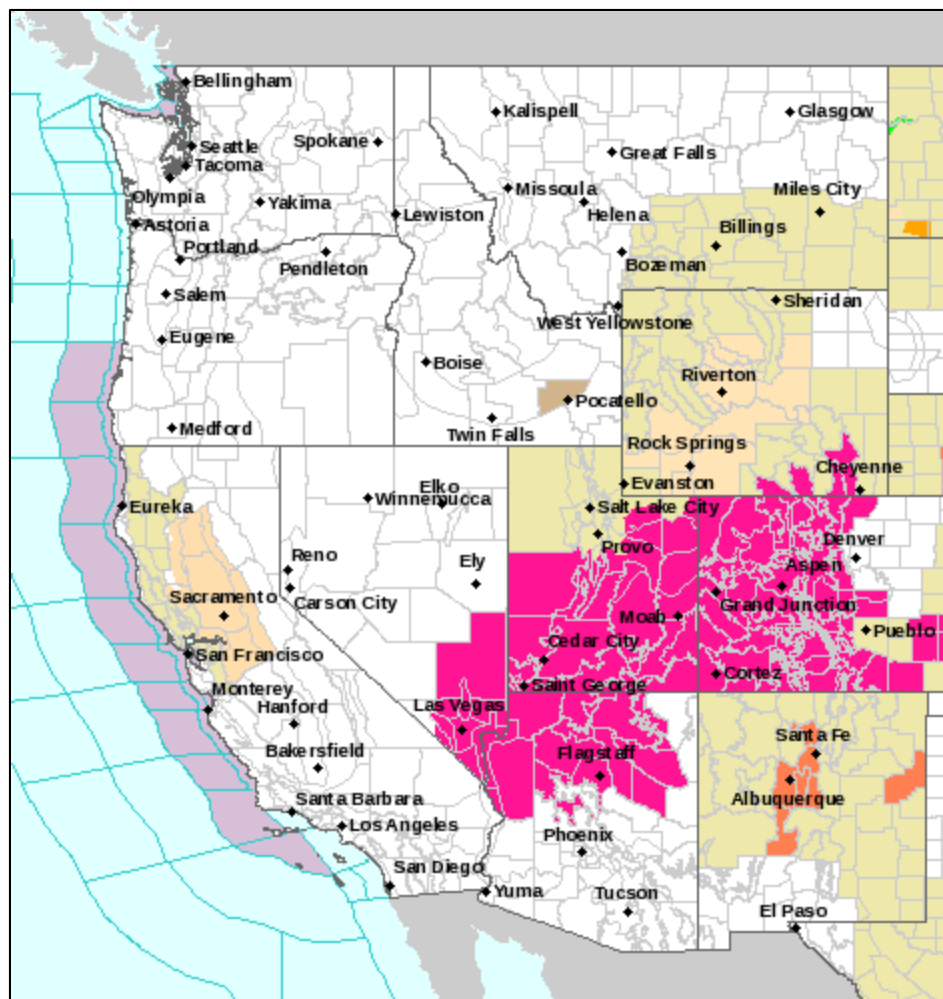

Some lighter but still gusty W to NW afternoon winds will develop today as the trough moves into the Great Basin. High pressure will be strengthening over the Pacific right behind the trough tonight already, and this will lead to moderately strong, gusty N winds developing early Friday that will continue into Sunday that will generate hot temperatures (~100 Fri, ~107 Sat) and low RH (5-12%) in the Sacramento Valley/Foothills. Those conditions are enough to designate High Risk for that area Friday and Saturday. The event will be very similar to those that developed this past Friday/Saturday. The Mid Coast/Mendocino will also have the possibility of High Risk for Saturday, but that remains rather uncertain at the moment.

Winds will become much lighter in the Sacramento Valley Sunday, although hot, dry conditions will continue in all areas. Monday a trough is expected to move south over the region from out of the Pacific NW, and this will moderate temperatures and promote cooler onshore flow through the middle of next week. Areas with gusty afternoon westerly winds are likely to continue over the western areas of the Geographic Area at that time as well.

SOUTHERN CALIFORNIA

A trough moved into the Pacific Northwest and will expand to cover much of the West Coast today and Friday. Temperatures will lower by 5 degrees or so today and Friday as the approaching trough moves inland. The marine layer will deepen in the coming days with night and morning low clouds and fog becoming more prevalent in the coastal areas. In addition, onshore flow will strengthen with gusty southwest winds of 15-30 mph across the mountains and deserts, namely over the Tehachapi Range and across the Mojave. Moderate sea breezes can be expected along the coast during this same period, except for light to moderate Sundowner winds over the Santa Ynez Mountains during the next couple of nights. The cooler weather will be short lived as high pressure off the Pacific builds eastward toward California this weekend. Warmer and drier weather, along with lighter winds, can be expected for both Saturday and Sunday before a little cooler weather arrives early next week. Long range projections suggest the monsoon may make its debut by the middle to latter part of next week with the possibility of thunderstorms across the mountains and deserts by then.
